W. A. MOORE,
Manager.

The Red Deer Curling Club.

The annual meeting of the Red Deer Curling Club was held at the Alberta Hotel on Monday evening last.

A. Scott, President of the club in the chair, while R. W. Grive acted as Secretary.

The financial statement showed the club to be in a flourishing condition, there being only some fifteen dollars due for annual fees, which would be paid, thus leaving the club practically out of debt, with a small balance to its credit on the right side of the ledger.

Communications were read from the Montreal Curling Club inviting the club to attend the grand bonspiel to be held there in January. Also from the Alberta Branch of the Royal Caledonian Curling Club of Calgary with regard to affiliation.

The following officers were then elected for the ensuing year: President, A. T. Stephenson; Vice President, W. L. Oumette; Sec. Treas., R. B. Welliver; Committee of Management, Messrs. Harkness, Scott, and Finley.

Mr. Slade was present and stated considerable improvements had been made in the rink. The light would be increased six fold, the leakage in the roof remedied, and the ceiling whitewashed, beside special accommodation for curlers.

The meeting adjourned to next Monday evening at the Alberta, at 8 o'clock, for the election of ships and any other business that may come before the meeting.

Charge of Burglary.

On Wednesday last about 4.30 o'clock in the morning a man named Edgar Lull was captured in the Billiard Hall of the Alberta Hotel, by the Proprietor of the Hall, Mr. Frank L. Vickers, and an assistant named Price. It will be remembered that about two months ago the same premises were broken into and a considerable amount of money stolen from a slot machine, but the thief was not discovered. Since then Mr. Vickers has kept both his ears and eyes open and from certain information was led to believe another attempt was to be made during the night in question to crack the machine.

In consequence he and Price armed themselves and lay concealed in the saloon and at the time stated held up the accused; who was formerly employed as Porter at the Hotel. Price covered Lull with a gun, until Vickers hunted up the Police, who on arrival took Lull into custody. Accused was brought up before Mr. Fulmer J. P., on Thursday and remanded until the following day, when he was defended by Mr. W. E. Payne.

After hearing formal evidence accused was committed for trial at the next session at Red Deer and in the meantime was taken to the Court Room at Calgary by Constable Johnston. Mr. Vickers is to be complimented on the adroitness with which he effected the capture.

Sport On the Hog.

Last week one of our residents who is considered a great authority on hogs was returning along the trail from Fenhold to Red Deer, when he surprised a bunch of prairie chicken, the birds were strong on the wing and were out of range before the "Old Sport" could reach for his gun, but he marked the spot the birds settled and forced on ahead. Before reaching the spot however, a coyote crossed the road, and entered the brush at the identical spot the birds had settled. Sure of either fur or feather, the gallant Captain cautiously approached the spot and saw the tall grass moving, this time he was taking no chances, and his trusty gun belched forth its deadly message, a pleasing scream broke the stillness, followed by a gruff voice, garbled with curses which informed the "Sport" he had shot his (the speaker's) old hog. The Captain regained his senses and made good time to Red Deer, but whether he was afraid of being pursued by the wounded animal or its infuriated owner is just a trifle dubious.

The Amersden Musical Company has come—seen and—not conquered—but left a favourable impression, equalled by few excepted only by the Resonant Opera Company. By saying excellently one must understand that the reference is made only to Comic Opera. Comparisons are tedious in general, but in the various phases of the stage they become impossible. The drama differs so much from the Opera as to defy comparison. We were interested in the Nelson Co., amused by the Amersden, while in the Pringle, we were moved by the pathos of Miss Pearl King. The governor's wife was a success, everyone agreed to that. There may have been portions of the play that failed to attract or artists, who disappointed a little but on the whole it was a success. Mr. Amersden, himself was good and proved himself a thorough comedian. Mr. Wilson sang well and with spirit but lacked the richness of tone that goes to make a successful tenor; but as he was suffering from a cold at the time, it would be unfair to criticize to any extent. Mr.

Harvey was good and succeeded in making himself ludicrous in the extreme. Of the ladies, Miss Davenport, sang well and acted with spirit. Miss Bessie Bacon, however was one of the successes of the evening, not so much by her singing as her acting and mannerisms that soon won the house. The chorus on the whole was fair, but it is hard to expect so much from so limited a number. On the following night, "The Masquerade" was represented by the same Company, but with less success. Without by any means proving a failure it lacked the backbone of the previous night, though it was sufficiently comical to provide considerable amusement for the evening.

This week has been eventful, with a varied list of events. From the modern and up-to-date comic opera to bronco busting in the streets, the town has had little excuse for boredom from ennui. The "Out in Idaho" Company's broncho Buster rode well and won the plaudits of all spectators.

WAIT! you will regret it if you miss the Palmatrix Sisters Concert. Remember Nov. 30th as the date and GO.

Try a National Steel Range at Tallmans. Prices moderate. See prices on front page.

Mr. and Mrs. Geo. Beatty, of the Alberta Hotel, returned from their extended visit East, Saturday evening last. This is Mr. Beatty's first trip to Ontario in twenty-seven years, and he noticed great changes in the cities and people in that time, but things in the country seemed to be the same as when he left them.

"LORD'S"

We have

CHAPTER VIII.

WHEN Raoul de Lagors spoke of M. Fauvel's extraordinary dejection, he had not exaggerated. Since the fatal day when, upon his denunciation, his cashier had been arrested, the banker had been a prey to the most gloomy melancholy and absolutely refused to take any interest in business affairs. He who had always been so domestic and not at all unkind to his family except at meals, when he would allow a few mouthfuls and hastily leave the room. Shut up in his study, he would see no one.

The day of Prosper's release, about 3 o'clock, M. Fauvel was, as usual, seated in his study, with his elbow resting on the table and his face buried in his hands, when his office boy rushed in with a frightened look.

"Monsieur, the foreman, M. Bertomy, is here with a friend. He says he must see you on business."

"The banker started."

"Prosper?" he cried in a voice choked by anger. "How does he dare?"

"Remembering that he ought to control himself before his servant, he waited a few moments and said in a tone of forced calmness:

"Ask them to wait."

M. Fauvel then continued upon with a strange and affecting sight, he was not disappointed. Nothing could be more terrible than the attitude of these two men as they stood confronting each other. The banker's face was almost purple with suppressed anger, as if about to be struck by apoplexy. Prosper was pale and motionless. They stood glaring at each other. M. Verduret curiously watched them with the indifference and coolness of a philosopher who in the most violent outbursts of human passion merely sees subjects for study. Finally, the silence becoming more and more threatening, he decided to break it by speaking to the banker.

"I suppose, monsieur, you know that my young friend has just been released from prison."

"Yes," replied M. Fauvel, making an effort to control himself—"yes, for want of sufficient proof."

"Precisely, monsieur, and this want of proof, as stated in the decision of 'not proved,' ruins his prospects and compels him to leave here at once for America."

At this information M. Fauvel's features relaxed as if relieved.

"Ah, he is going," he said.

There was no mistaking the resentful, almost insulting intonation of this words "going away."

"It appears to me," continued M. Verduret, "that Prosper's determination is a wise one. I merely wished him before leaving Paris to come and pay his respects to me and to me."

"The banker smiled bitterly.

"M. Bertomy," he replied, "might have spared us both this painful meeting. I have nothing to say to him, and of course he can have nothing to say to me."

This was a formal dismissal, and M. Verduret, understanding it thus, bowed to M. Fauvel, accompanied by Prosper, who had not spoken a word.

When they reached the street, Prosper repeated the words of his dejection.

"I hope you are satisfied, monsieur," he said in a gloomy tone. "You expected this painful part, and I could only acquiesce. Have I gained anything by adding this humiliation to the others?"

"I have," replied M. Verduret. "I could find no way of gaining access to M. Fauvel save through you, and now I have found out what I wanted to know. I am convinced that M. Fauvel had nothing to do with the robbery."

"Oh, monsieur," objected Prosper, "innocence can be forgiven."

"Certainly, but not to this extent. And this is not all. I wished to find out if M. Fauvel would be accessible to certain suggestions. Now I can say 'Yes.'"

Prosper and his companion had stopped to talk more at ease near the corner of Lafitte street, in the middle of a large square which had lately been cleared by pulling down an old house. M. Verduret seemed to be anxious and was constantly looking around as if he expected some one. He soon uttered an exclamation of satisfaction. At the other end of the vacant space appeared a Cavalier, who was running bare-headed and so excited that he did not even stop to shake hands with Prosper, but said to M. Verduret:

"They have gone, monsieur."

"How long since?"

"About a quarter of an hour ago."

"The deuce they did! Then we have not a minute to lose."

He handed Cavalier the note he had written some hours before at Prosper's house.

"Here, send him this and then return at once to your desk. You might be missed. It was very imprudent in you to come out without your hat."

Little Cavalier ran off as quickly as he had come. Prosper was stupefied.

"What?" he said. "You know Cavalier?"

"So it seems," answered M. Verduret, with a smile. "But we have no time to talk. Make haste."

Prosper was alone. He seemed to be

M. Verduret suddenly stopped before a door bearing the number 81. He led the way up the steps and stopped on the second floor before a door which was a large sign—"Dressmaker"—a handsome waltz-hung on the wall, but M. Verduret did not touch it. He tapped with the ends of his fingers the door handle and the door slowly opened as if some one had been watching for his signal on the other side—a woman of about forty. She who had always been so domestic and not at all unkind to his family except at meals, when he would allow a few mouthfuls and hastily leave the room. Shut up in his study, he would see no one.

"Well," he said by a look. She bowed affirmatively.

"In there?" asked M. Verduret in a low tone, pointing to one of the doors.

"No," said the woman in the same tone, "over there in the little parlor."

M. Verduret opened the door pointed out and pushed Prosper into the little parlor, where the foreman said so:

"Go in and keep steady."

But this injunction was useless. The instant he cast his eyes around the room, he felt as if he had been pushed into a trap.

"Prosper!" he cried in a voice choked by anger. "How does he dare?"

"Remembering that he ought to control himself before his servant, he waited a few moments and said in a tone of forced calmness:

"Ask them to wait."

M. Fauvel then continued upon with a strange and affecting sight, he was not disappointed. Nothing could be more terrible than the attitude of these two men as they stood confronting each other. The banker's face was almost purple with suppressed anger, as if about to be struck by apoplexy. Prosper was pale and motionless. They stood glaring at each other. M. Verduret curiously watched them with the indifference and coolness of a philosopher who in the most violent outbursts of human passion merely sees subjects for study. Finally, the silence becoming more and more threatening, he decided to break it by speaking to the banker.

"I suppose, monsieur, you know that my young friend has just been released from prison."

"Yes," replied M. Fauvel, making an effort to control himself—"yes, for want of sufficient proof."

"Precisely, monsieur, and this want of proof, as stated in the decision of 'not proved,' ruins his prospects and compels him to leave here at once for America."

At this information M. Fauvel's features relaxed as if relieved.

"Ah, he is going," he said.

There was no mistaking the resentful, almost insulting intonation of this words "going away."

"It appears to me," continued M. Verduret, "that Prosper's determination is a wise one. I merely wished him before leaving Paris to come and pay his respects to me and to me."

"The banker smiled bitterly.

"M. Bertomy," he replied, "might have spared us both this painful meeting. I have nothing to say to him, and of course he can have nothing to say to me."

This was a formal dismissal, and M. Verduret, understanding it thus, bowed to M. Fauvel, accompanied by Prosper, who had not spoken a word.

When they reached the street, Prosper repeated the words of his dejection.

"I hope you are satisfied, monsieur," he said in a gloomy tone. "You expected this painful part, and I could only acquiesce. Have I gained anything by adding this humiliation to the others?"

"I have," replied M. Verduret. "I could find no way of gaining access to M. Fauvel save through you, and now I have found out what I wanted to know. I am convinced that M. Fauvel had nothing to do with the robbery."

"Oh, monsieur," objected Prosper, "innocence can be forgiven."

"Certainly, but not to this extent. And this is not all. I wished to find out if M. Fauvel would be accessible to certain suggestions. Now I can say 'Yes.'"

Prosper and his companion had stopped to talk more at ease near the corner of Lafitte street, in the middle of a large square which had lately been cleared by pulling down an old house. M. Verduret seemed to be anxious and was constantly looking around as if he expected some one. He soon uttered an exclamation of satisfaction. At the other end of the vacant space appeared a Cavalier, who was running bare-headed and so excited that he did not even stop to shake hands with Prosper, but said to M. Verduret:

"They have gone, monsieur."

"How long since?"

"About a quarter of an hour ago."

"The deuce they did! Then we have not a minute to lose."

He handed Cavalier the note he had written some hours before at Prosper's house.

"Here, send him this and then return at once to your desk. You might be missed. It was very imprudent in you to come out without your hat."

Little Cavalier ran off as quickly as he had come. Prosper was stupefied.

"What?" he said. "You know Cavalier?"

"So it seems," answered M. Verduret, with a smile. "But we have no time to talk. Make haste."

Prosper was alone. He seemed to be

awaking from a troubled dream. He tried to think over what had just happened and asked himself if he were losing his mind. When M. Verduret entered the little parlor and pushed him toward him and in a harsh, threatening voice said to him:

"Who are you?"

The fat man did not show any surprise at this burst of anger, but quietly answered:

"A friend of your father. Did you not know it?"

"This is no answer, monsieur. I have surrendered my will to a stranger, and now?"

"Do you want my biography—what I have been, what I am and what I will be? What difference does it make to you? I told you that I would save you. It is essential that I save you."

"Madame! she has ceased to love me, and of what importance is anything else?"

His heartbroken tone aroused M. Verduret's sympathy, and he said in a kind, soothing voice:

"What is the matter with you? You do not know the meaning of what she said?"

awaking from a troubled dream. He tried to think over what had just happened and asked himself if he were losing his mind. When M. Verduret entered the little parlor and pushed him toward him and in a harsh, threatening voice said to him:

"Who are you?"

The fat man did not show any surprise at this burst of anger, but quietly answered:

"A friend of your father. Did you not know it?"

"This is no answer, monsieur. I have surrendered my will to a stranger, and now?"

"Do you want my biography—what I have been, what I am and what I will be? What difference does it make to you? I told you that I would save you. It is essential that I save you."

"Madame! she has ceased to love me, and of what importance is anything else?"

His heartbroken tone aroused M. Verduret's sympathy, and he said in a kind, soothing voice:

"What is the matter with you? You do not know the meaning of what she said?"

"You were listening?" cried Prosper.

"I was. It was a presumptuous thing to do, perhaps, but the end justified the means. I am glad I did listen, because it has enabled me to say to you: Take courage, Prosper. Madame loves you; she has never ceased to love you."

"She loves me, she is free, and yet she abuses me."

"She is not free. In breaking off her engagement with you she was governed by her powerful, irresistible motive. She is sacrificing herself for whom? We shall soon know, and the secret of her self-sacrifice will disclose to us the secret of the plot of which you are the victim."

As M. Verduret spoke Prosper felt his resolutions of revenge shaken by confidence and hope.

"If what you say were true?" he murmured.

"Why do you persist in obstinately shutting your eyes to the proof I place before you? Can you not see that Madame knows who the thief is?"

"Impossible!"

"She does, but no human power can tell the secret from her. She sacrifices you. But then, she almost has the right, since she first sacrificed herself."

"Prosper was clenching, and it nearly broke his heart to have this little parlor where he had seen Madame."

"Alas!" he said, pressing M. Verduret's hand, "you are right, but you do not know how I suffer."

"For a moment Prosper was silent, then he said:

"I am a free man. My honor is a sacred trust for which I must account to my family. I am ready to follow you to the end of the world."

"Dispel me of you, judge Prosper."

"That same day Prosper, faithful to his promise, sold his furniture and wrote a letter to his friends announcing his intended departure for San Francisco. In the evening he and M. Verduret installed themselves in the Archangel."

(To be Continued.)

The World's Future Population.

It is now claimed by some statisticians that the world will be overpopulated at the end of the year 1972, when the population, with present rate of increase will be 6,500,000,000 people.

Author Wanted the Brief.

While E. C. Carrigan was in General B. Butler's law office a lady came in to ask some advice. As the general was not in, Mr. Carrigan questioned her and told her he would submit her case to the general, which he did.

The general was to leave the next day for Washington and told Mr. Carrigan to prepare a brief of the lady's case and show it to him the next day.

Mr. Carrigan sat up half of the night writing his brief. The next morning, about fifteen minutes before Butler was to take his carriage for the train, he told Mr. Carrigan he would look at his brief and give his opinion.

Mr. Carrigan began by saying: "General, I have made a most careful study of this case. I have the points all in my head and can state them to you in ten minutes."

"Let me have the brief," again said the general, somewhat sharply.

"But, General Butler," said Mr. Carrigan, "I have not time to write it, and I am sure you will not have time to read it before you leave."

"I am sure you will not have time to read it before you leave," said Mr. Carrigan, "but I have left it at home on my table. However, as I said, I have all the points of the case in my head, and I can state them to you in ten minutes."

"Young man," said the general, "the next time you have a brief to prepare for me bring me the brief and leave your head at home on the table!"

Boston Herald.

The Great Lake Cities.

Chicago, Cleveland, Buffalo, Detroit and Milwaukee, with Duluth and Superior thrown in at the head of the greatest lake and many thriving ports on its shores, are a unique case.

Their rate of growth is the highest maintained in any group of cities. Their population is phenomenally low. Their proportion of home owners is extraordinary. Their totals and gains in savings bank deposits are almost unparalleled. They are the only cities as a group, of enterprise and activity, fairly eloquent with the spirit of prosperity and progress. —Cleveland Leader.

Birds of Prey.
Most birds of prey are provided with slitting membranes that serve to keep the eye perfectly clean and bright.

Horses in Argentina.
Traveling on Argentine pampas is interesting if not entirely comfortable. Men there are scarce, but horses are plentiful. Often sixty horses are driven in the same team. The driver is perched thirty feet from the ground in the wagons are sometimes fifty feet long and fifteen wide, while the back seats are sometimes ten feet high.

Apples and the Throat.
By ordering his patients to eat heartily of certain fruits and forbidding them to touch others at all, Dr. Nadeh, of Paris' most famous scientists, is treating the throats of the great opera singers. There is no medicine at all in his treatment. In some cases he adds nothing to the patient's diet and secures results by forbidding them to eat apples and pears. According to Dr. Nadeh an apple or pear each day is enough to keep the sensitive throat in order all the time. A singer of course notices the first symptom of throat disorder in the form of congestion of the vocal cords. These, instead of being white and shiny like a tendon, become red and swollen with congestion of blood. The high notes become difficult and the quality of the voice is impaired.

As the Oil Rubs In. The Pain Rubs Out—called the "Pain Rub" in any part of the body the skin absorbs the soothing liniment under a variety of ailments and the patient obtains instant relief. The results of the use of Dr. Thomas' Electric Oil have surprised many who are unacquainted with its merits, and once known it will not be rejected. Try it.

Shakespeare on Hand.
Some pessimists are inclined to think that Shakespeare is quite dead. Good news, however, comes from Hungary. A correspondent has recently seen a theatrical poster there which runs as follows:

By Divine Permission, in the year 1906, on the 20th, will be represented for the first time
ROMEO AND JULIET.
A sensational tragedy, universally renowned, in five acts, with songs, dances and music.

By Walter Shakespeare.
The Author will be present at the Performance.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow the directions.

Quite a Variety.
The fashionable girl had accepted him and the young man was wondering how far his \$30 a week would go.

"You must remember that this is not all gold and tennis," murmured he.

"Why, of course it isn't," she responded brightly. "There's boasting and boasting and bridge and over so many things."

He Might Be Needed.
It is best to be courteous to nil, even to the man that you dislike. You may find to your regret from him some day.—Boston Globe.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by the use of

False Doctrine.
School Examiner—What is the meaning of false doctrine? Schoolboy—Please, sir, it's when the doctor gives the wrong stuff to the people who are sick.—Christian Register.

Nervous System Broke Down
SHE WAS WEAK AND DISCOURAGED
NOW LOOKS AND FEELS WELL AND WOULD HARDLY BE TAKEN FOR THE SAME PERSON
—THANKS TO
Dr. Chase's Nerve Food.

Mrs. John Armstrong, Heather Brae, Alta was in very poor health for over four years after the birth of her first child. She was weak, downhearted and discouraged. Writing for Mrs. D. B. Burgess, her aunt of the same place, states:

"Mrs. Armstrong had great weakness, heart trouble and indigestion. In fact she was run down in every way and seemed to lose hope of ever getting well again. She was scarcely able to drag herself about."

The persistent use of Dr. Chase's Nerve Food has proven of marvellous benefit to her. She feels real well now, is looking fine and dressing up, and is able to do her usual work for the same person. You may use her name in recommendation of Dr. Chase's Nerve Food, as it is all so very grateful for what it has done for her, and never lose an opportunity of saying a good word for it."

Professional men, as well as laymen, have been puzzled over the mystery of the nervous system, but this

The Mark That Tells
Pen-Angle trademark (in red) on every Pen-Angle garment, tells you it will stand you a shrink, your own dealer so guarantees it. Underwear, trademared, is softer, warmer, more flexible, better wearing.

BETTER UNDERWEAR
"Really now," said Mrs. Goodhart, "you're a runaway, aren't you?"
"You're kidding the youthful tramp," said Mrs. Goodhart, "and you're not a runaway, are you?"
"I was nearly, and so I ran an' ran till I was nearly dead, an'—"
"I sincerely couldn't go a step farther, eh?"
"No'm, it was the steamroller I couldn't go—Philadelphia Press."

The secret of being tireless is in tolling everlastingly—Voltaire.

Minard's Lintment Cures Dandruff.

Clock Inscriptions.
In former times it was the custom of clock-makers to inscribe on the dials of their clocks quaint verses, one of the most common being the following:

Leave me here with all my might To tell the hours by day, by night. Therefore example take by me To serve thy God as I serve thee.

Another favorite inscription was "Pegasus Fugit," or "Time Flies," and these were usually written in English clockmaker who flourished during the close of the last century, on being asked by a customer whether a certain clock was of home manufacture, replied: "Oh, certainly. Don't you see the name, air—Tunnam Fugit! I often have his clocks through my hands."

A THANKFUL MOTHER.
"Thank you with all my heart for what Baby's Own Tablets have done for my little girl," says Mrs. Antoine, a mother of four children.

"When I began giving her the tablets she seemed to be pining away, but after using less than a box she was rapidly gaining and she is now a fine, fat, healthy little one, and I write you this as a testimonial."

"I am a mother who will never forget what Baby's Own Tablets have done for my little girl. They have cured all her troubles and made her a healthy, happy child."

"I am a mother who will never forget what Baby's Own Tablets have done for my little girl. They have cured all her troubles and made her a healthy, happy child."

WOMAN'S WORLD

With all her strenuous labors, Mrs. Alice M. Butler, of St. Joseph, Mo., has not had a failure in all her career.

MRS. ALICE M. BUTLER.

The Missouri Railway Promoter in This Country.

Missouri is the home of the only woman railway promoter in the United States—Mrs. Alice M. Butler of St. Joseph, Mo. Butler has had experience in promoting many railway lines which are now in successful operation. Mrs. Butler plans great things, but she is far from being a feminine blunderer. She has not had a failure in all her career.

Mrs. Butler has done most of her work in Missouri, Iowa, Illinois and Ohio. She promoted a line from Dayton, Ohio, to Le Clair and Clinton, which is now in successful operation. She has already tapped the fertile Northwest of Missouri and has plans to griddle the state with a network of interurbans that will revolutionize farm life in Missouri.

With all her strenuous labors, and Mrs. Butler is a hustler in every sense of the word, she retains her womanliness, is quiet, modest, ladylike in every action, unassuming and extremely modest. She declines to talk of herself, but to a Post-Dispatch correspondent lately that to any of her.

"So far as I know, I am the only woman promoter of railroads in the country." It is a work in which I am interested beyond power of words to express, and it is a work in which I believe I am competent. When you come to consider it there is no reason why a woman should not do such work. It is the idea that counts in this world, which originates in the brain of a man or a woman. If a capitalist sees a chance to invest and make every dollar earn five or ten, does he stop to ask whether it is a man or a woman who first gave him the idea? There are no sex distinctions in business.

"With all my courage and going, I might add, I have had many strange experiences, but I have never been treated in any manner which any lady would find in the slightest way dissatisfying. I have to deal often with politicians, but I am always treated like a lady.

"So long as I deem myself properly paid, I can command the respect of any man with whom my business brings me in contact. We hear much of the corruption of politics, but I have seen little of it. I have been elected out of my rights, and I have had hard times to obtain my rights, but business is business, and the body politic is far from being corrupt and rotten, as pessimists would have us believe."

While Mrs. Butler can hardly be said to have any permanent home, as she is always on the go, her permanent address is the Hotel Metropole, St. Joseph. She is at home, however, wherever an idea from her fertile brain can be made to "work out"—St. Louis Post-Dispatch.

The Sewing Room.

A sewing room depends upon the extent of the industry carried on therein. The more important things which will make it a comfort and a pleasure to work in are an old pie ginner which you can either hang or have mounted, and, if possible, a discarded piece of furniture of the "dresser" variety, which will give you a place to sit as possible to take advantage of every bit of spare time, which never would be done if things had to be got out.

Hardwood Floor Polish.

A good mixture for polishing a hardwood floor may be made from one-third raw linseed oil and two-thirds paraffin. It should be used sparingly or the polishing afterward will take a long time. In cleaning such a floor it is better to use a scrub brush rather than a stiff one. After being well swept the floor should be wiped with a dry, soft cloth in order to take up all dust. If there are any spots they may be removed with a cloth wet with turpentine or they may be rubbed with clean, wrung-out, dry water.

This will take off the polish, but it may be restored by using a weighted brush. This brush has a long handle in a piebald back and forth till the polish is again restored. Waxed cloths may be used, but of course it will take longer and the work will be tedious. The weighted brush as well as others should be thoroughly cleaned two or three times a year by washing them in warm water to which a few drops of ammonia has been added.—New York Post.

Brushing Velvet.

The whole secret in the care of velvets in the management of the brush. Take a hair brush, which is not too soft and which has bristles elastic enough to return to their original shape after being pressed aside. Hold this firmly under the palm of the hand in the direction of the arm and with the bristles downward. Press them at first gently into the velvet; then twist the arm, hand and brush together, as on an axis, without moving them forward or backward. The dust will be drawn up and stirred out without injury to the velvet, and the brush must be lifted up and placed in a similar manner over every part required to be brushed. By this method velvet will last for years.

Torn Wall Paper.

When a hole has been jammed in the wall paper, sometimes occurs in moving a piece of furniture, if one has no paper like the one on the wall or dislikes the appearance of a patch, a judicious use of water colors will work wonders. The torn paper should be first straightened as neatly as possible and glued down to the wall at the vacant spaces and the seams with plain color of the paper at that point. The break will be almost invisible if the water colors are used carefully. In patching wall paper always tear the patch irregularly instead of cutting it unless it is the full strip. The edge will be less noticeable.

Prevent Hables.

When the baby cries and frets at night, instead of drifting peacefully off to slumberland, do not give him medicine at once. Try first some simple, natural remedy. Spanish women put restless infants to sleep by rubbing their backs, and this method should prove equally effective with American resources put the baby into a warm bath, which will take all the congestion from the brain and spinal cord, and the little child will fall asleep in a few moments.

Saves the Ice.

If you cannot afford an asbestos lining for your icebox you will find that it will materially lessen your ice bill if you lay old newspapers thick over the top and sides, but not on the bottom of the ice. This keeps the warm air of the room from striking every time the door opens, and as it melts much slower the food in the chamber below is kept at a lower temperature.

The Elbow.

To remove a splinter from the elbow, soak them over night for ten minutes in warm water in which a teaspoonful of borax has been dissolved. Then carefully dry and rub with a good cold cream. If the habit of leaning on the elbows has been formed it should be broken immediately, as it is this habit that causes callous spots.

Sedative Skin Lotion.

A very fine sedative lotion for the skin and one which will remove the oily shine is made by combining one ounce each of rose water, one-half ounce of orange water, one-fourth ounce of borax, one-half ounce of glycerine, and one-half ounce of alcohol. Shake well. Apply at night and morning.

Mind the Frock.

Do not overrate your power of mind and underrate that of your pretty frock. A dress is a woman's armor, while he may excite the scorn of some strong feminine minds there is not a little evidence that many women of unimpaired capacities have already taken unto themselves this gem of wisdom.

A Good Tooth Powder.

The following is a most satisfactory tooth powder: Mix well together two ounces each of cornstarch and camphorated chalk. Add twelve drops of eucalypti oil and again mix. Keep in air tight tin if possible.

In choosing a stair carpet it is always in better taste to select a perfectly plain carpet than a figured one, but if the carpet is to be chosen for its small, close set design, with subdued colors well mingled.

Pictures always look best on a warm, toned, plain antiseptic background. If you are papering a room choose rather a paper with no figure than one with sprays.

If scars remaining from plums be bathed in a saturated solution of boracic acid and then washed with clean ment they will readily disappear.

Finest table salt rubbed on marble will do no harm, and the marble be of too long standing.

Beautiful Arms.

How They May Be Obtained With Ease.

A leading artist recently described the ideal arm as follows:

"A woman's arms are of just the correct length," he said, "when with the tips of her fingers she can measure just her own height with arms outstretched. The shape of her arms, however, is far more important than their length. They must be symmetrical to be pretty, the color must be white, while not pallid, and the skin soft and smooth. Perfect arms are round arms, and the roundness should extend all the way from the shoulder right down to the wrist. The arms must be plump, yet not fat, and finished off with a dimple at the shoulder, at the elbow and at the wrist."

"Dimpled wrists are rare, yet one does see them. A pretty wrist is one that is small and tapering. Certain wrists are so tiny that they look as though a string were tied around them above the elbow. This kind of wrist is very childish and gives the owner an appearance of youth."

"Nice hands go with nice wrists, of course, and the woman whose arms and wrists are good will not neglect to make her hands nice also. She must preserve their plumpness and must see to it that they are the right color and shape."

A few simple exercises, which can be practiced in the privacy of one's bed:

When the baby cries and frets at night, instead of drifting peacefully off to slumberland, do not give him medicine at once. Try first some simple, natural remedy. THE BARNUM MUSEUM

THE HISTORIC MUSEUM THAT STOOD IN LOWER NEW YORK.

FOR \$2,000 EACH

By C. B. LEWIS

Copyright, 1906, by Italy Douglas

Young James Harper, farmer, and Sarah Lee, daughter of a farmer, married for love. They had two or three lovers' quarrels, as was quite on the cards and very natural, but for two years after marriage no couple ever lived more happily. This state of affairs might have continued at least two years longer but for Abner Jones, Esq., county justice of the peace and agent for the Farmers' Fire Insurance company, and serving machines of all makes, thought and sold. He made his appearance at the farmhouse one day.

"Well, Jim," he said, "what do you and Sarah think? I've got the agency for a life insurance company and am going to branch out a little. I want to insure the both of you. I've got Tom Spooner and his wife, Bill Wheeler and his wife, Silas Johnson and his wife and several others. I'm sure to get you. I want you to take \$2,000 apiece. If you die, Sarah, Jim has got \$2,000 to buy you a monument, my funeral expenses and go away to Niagara Falls to get over his grief. If you die, Jim, Sarah has got money to bury you decently and carry on the farm without having to rush and marry again."

The square went into further explanations. He talked life insurance and stayed in the evening. Then he drank two glasses of beer, ate three cakes and a piece of mince pie and went home to make out the policy for \$2,000 each.

Jim and Sarah had decided that such insurance was a good thing. Neither wanted to die, but if death must come they would not be selfish about it. It would be a bond to draw them still closer together. In the course of a couple of weeks the policies were delivered, the premiums paid, and Squire Jones stayed to dinner again and said that he would be glad to look his plate, but remembered his dignity in any case.

"Now, then, young folks, this is the best thing you can do for yourselves. Keep on loving, keeping up your premiums as they fall due, and don't worry about the future. With \$2,000 each you can't starve. If you die, your heirs needn't either. You'll be able to get the Astors or Vanderbilts. Sarah, you can dress the most expensive mourning, and Jim, you can wear patent leather shoes and hear Niagara roar till you get tired of it."

It was some time before Jim and Sarah were able to get their heads above water for the insurance, but it was Aunt Deborah who was responsible for what resulted. The policies had been carefully examined by the county bureau drawer and the subject talked out when Aunt Deborah came visiting one afternoon. She had not been invited, but she expected, and she proceeded to make herself at home, and by and by announced:

"I've just heard that you and James have had your lives insured for each other's benefit, but I told 'em you were not the woman to go into anything like that."

"But we have," replied Sarah. "We insured two weeks ago."

"Upon my soul! No one could have made me believe that. I thought you were a fool. What's the matter?"

"Sarah Harper, do you know that you have the same as doomed yourself to death?"

"What do you mean, Aunt?"

"The young wife looked at him on the face of this earth who wouldn't kill his wife for the sake of \$2,000 in cash. That insurance is a temptation to murder. Hundreds of wives have been killed off every year, and you will be one of them before another year rolls over your head."

The young wife laughed merrily at the idea, but Aunt Deborah grew more solemn and serious, and said:

"Don't fool yourself, Sarah. Jim is just as good a husband as any of 'em, but you have put temptation in his way. He'll be thinking of them \$2,000 all the time, and the longer he'll make it will make him to murder you. Two thousand dollars in cash and you out of the way so that the insurance will be money in no time. I shan't be a bit surprised any day to hear that you have been found murdered. Squire Jones can't be a witness for you, and you'll be a widow before you're dead."

Sarah continued to laugh and make fun at the idea, and it was finally dropped to take up soft soap and carpet rags. When she set about getting supper Aunt Deborah made a sneak outdoors and caught the husband as he came up from the cornfield.

"Well," she began, after he greeted her, "you want Sarah to drop you up with the ax or your melted lead in your ears, I see?"

"What is it, Aunt?"

"It's the rat insurance. Henry Harper, I'm astonished at you. Do you know how many wives killed their husbands last year to get the insurance money?"

"A million perhaps, but Sarah isn't going to kill me."

"Time will tell, James, time will tell. Sarah, I shan't be a bit surprised any day to hear that you have been found murdered. Squire Jones can't be a witness for you, and you'll be a widow before you're dead."

her by the throat. She smiled at first, but when she saw the ax she faded away. Wives had been killed that the husband might profit by the insurance. Aunt Deborah was always predicting, but at the same time many of her predictions had come true. She knew that Henry loved her with a great love, but there was that \$2,000. For an hour she lay awake, and thought, and the longer she thought the more miserable she was.

Sarah had only fallen into a troubled sleep when the dog barked and Henry awoke. He did not get up for fear of disturbing his wife, and after listening to the dog for a few minutes the thought of Aunt Deborah's predictions and solemn face came to his mind.

He grinned at the idea of Sarah killing the dog for a few minutes the thought of Aunt Deborah's predictions and solemn face came to his mind.

TUESDAY, NOVEMBER 16th, 1906.

A TYPICAL WESTERNER.

M. McDonald the influential and interesting President and leading director of the Red Deer Mill and Elevator Co. Ltd. was in Red Deer last week attending a directors meeting and incidentally to look over his large interests here. Mr. McDonald is interesting because he is one of the busiest men in the west, being associated in many important corporations, yet most unassuming and courteous to those who have come in contact with him.

He is president of the Pincher Creek Mill & Elevator Co. Ltd., of the Battle River Land and Investment Co. Ltd., and President of the McDonald, Dunlop Co. Ltd. Calgary. He is promoting a company now to be known as the Western Elevator Co. Ltd. with a capital stock of \$250,000 sixty five per cent of the stock being taken by Minneapolis capitalists. The company intend building a line of Elevators on the North and South branches of the C. & E. Railway all ready for next year's crop. These Elevators will be built wherever business will warrant construction and will be used to supply as far as possible the large mills controlled by Mr. McDonald and his companies and grain.

Mr. McDonald and J. E. Wood have made application for a lease of water power on the Indian reserve at Kananaskis Falls west of Calgary, from the Dominion Government. They offer a yearly rental for certain water privileges for a number of years and if granted they intend installing an electrical power plant for transmitting electricity to Calgary and elsewhere.

In speaking of the Red Deer Mill, Mr. McDonald said that we have now a plant here equal to anything in the mill line west of Brandon. The machinery is modern and up-to-date in every respect and every effort is going to be made to turn out flour equal to anything on the market.

The new manager, Mr. Waite, is a practical miller of many years experience, and we hope his hands will be strengthened by strong and hearty support from the public generally.

EDITORIAL NOTES.

Red Deer is growing by leaps and bounds.

The Legislative Assembly of Alberta meets Jan. 17th.

The Dominion Parliament has been called together for the 22nd day of December.

Get on the move. Look up good hustling men for the Council. Elect the men who are not afraid to express their views, and will stand by them. We want men who will stand for Red Deer first, foremost, and always.

There is a rumor in circulation that the C. P. R. will double the round house capacity here next year and make this the terminus of the Lacombe branch, owing to the difficulty encountered in securing water, that will not foam, up the line.

A new feature in the investigation of the Ontario Bank failure, is the arrest of Charles McGill, the general manager, on a charge of theft, pure and simple. Bail has been refused by Col. Denison, and the chances are that he will be punished to the full extent of the law, but it is not enough to punish a single bank official in order to restore confidence in a banking system which is claimed to be superior to anything across the border. Every man in any way connected

with this bank failure, no matter what his position may be, should be sought out and punished.

Secretly and without competition does the Ottawa Government dispose of the public lands of Canada to its friends. The Saskatchewan Valley lands were sold at \$1 per acre, and were sold at a profit of \$1,750,000. The southern Alberta lands have just been given to a syndicate for \$1 an acre, and the syndicate has turned the bargain over at a profit of \$500,000. This sort of thing seems to be going on by wholesale. The London Free Press quotes the announcement of a Minneapolis company, which says "We have just closed a deal for another extensive tract of land in Sunny Southern Alberta. If you want to make some money on Canadian lands go with us on our special excursion." Land is to be sold for \$12.50 an acre, and the company declares that it will be worth \$20 in a short time, and from \$50 to \$100 later on. This is the Laurier policy of the land for the settler and the money for the Public Treasury.

Elections in United States.

New York, Nov. 7th. - Charles E. Hughes, Republican, has been elected governor for the state of N. Y., by a plurality of 54,000, according to figures today. Wm. Hearst, his opponent, had a clear plurality in every borough of Greater New York, but Hughes vote up state overcame this. Hearst's total plurality in Greater New York according to unofficial returns today was 70,868. Mr. Hearst also polled 641 plurality in two up state counties. Hughes plurality up state according to the unofficial returns with 186 districts missing was 129,888 leaving a total plurality for the Rep. candidate of 54,016. The missing districts may vary this general result by a few thousand votes either way.

New York, Nov. 7. - As far as is known the following governors are assured of election. Pennsylvania: - Stuart, Rep., by large majority. Wyoming: - Brooks, Rep., by majority of 2,000. New York: - Chas. E. Hughes, Rep., by 54,000 plurality. Massachusetts: - Curtis Guild, Rep., by 31,682 plurality. Nebraska: - Geo. L. Sheldon, Rep., by 18,000. The state has gone Republican. Rhode Island: - J. H. Higgins, Dem., by 1,238 plurality, the Republicans have carried the other officers. Minnesota: - John H. Johnston, Dem., re-elected by 40,000, the rest of the state ticket Rep. Kentucky: - Samuel W. Hague, Dem. by slight majority. Connecticut: - C. B. Woodruff, Rep., by 20,664, Rep., have swept the state. The Democrats made gains in the following states: Illinois 4, Indiana 2, Iowa 1 Missouri 5, Nebraska 1, New York 1, New Jersey 1, North Carolina, Ohio 1, Wisconsin 1, Maryland 1, Pennsylvania 5, the Republicans gained one in Kentucky and one in Maryland.

General News.

The Grand Trunk Pacific has decided upon the Yellowhead Pass, as the one it will use to reach the Pacific Coast. This has been done after careful surveys. The government will be asked to approve of this pass, which will give a grade through the Rocky Mountains of about four-tenths of one per cent.

Alponia Smythe, a young German girl, 14 years of age, an employee in the home of Mrs. Thos. Bennett, Strathcona, met almost instant death on Tuesday evening by electrocution from an incandescent light wire. The young lady had gone to the cellar and was in the act of shifting the wire, when her hand touched an uninsulated portion and she received a shock, which rendered her unconscious. She expired a few minutes later. The body was removed to Wainwright's undertaking parlors and Dr. Holton, coroner, held an inquest yesterday afternoon, which is being continued to-day. In the evidence taken at the inquest it appeared that the girl had seized the brass socket of the lamp. Her hand was wet with water, which would intensify the power of the current. - Journal.

A FOOD AND A TONIC

What the leading Medical Journal of the world has to say about FERROL.

After making a thorough test of FERROL in its own laboratory the London (England) *Lancet* published an article from which the following is taken:

FERROL

"This is a successful combination of the well-known valuable remedies, Cod Liver Oil, Iron and Phosphorus. The formula is no secret, and our analysis showed the presence and amount of constituents as described. The preparation is a good one and of distinct therapeutic value. The association of an easily assimilable oil, in a fine state of division, with a phosphatic salt of iron which does not disturb the digestive functions and which is easily tolerated, determines its success as a food and tonic in wasting diseases."

What the London *Lancet* recommends as a food and a tonic in all wasting diseases must have very special qualities.

No higher endorsement is possible. The results following the use of FERROL for the past ten years have proved that this endorsement is well deserved.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in prominent Hospitals, Sanitariums, etc.

Council Meeting.

The regular meeting of the Town Council was held on Thursday evening last. Members all present.

Mayor Michener in the chair. Minutes of last regular and special meetings read and confirmed.

Correspondence was read from Mayor Emerson, of Calgary, re meeting of Municipal Union.

From J. P. Rice, acting for W. L. McBride, asking for a reduction of show license.

From Slade & Brown asking for use of fire hose to flood rink.

From Contractors re cement and material for man holes, etc.

From D. M. Sanson re connection of drain.

From A. M. Byers re increased price of material.

From J. R. Cowell re hydrant couplings.

From E. Goodell re return of poll-tax, and several other small matters.

It was agreed that Jan. 8th, would suit the Council re meeting of Union of Alberta Municipalities.

Some discussion took place regarding reduction of license to Mr. McBride for Opera House.

It was claimed that, \$5 a night brought the license up very high. Ald. H. H. Gaetz and the Mayor were favourable to a regular hall license of say \$25 or \$30 a year.

Botterill and Stephenson didn't feel inclined to alter existing regulations.

Referred to Committee on license and police to report thereon.

Council allowed Slade & Brown use of hose, provided every precaution was taken of same under Brigade supervision.

Mr. Sanson's communication was referred to Fire and Water Committee.

Mr. Byers claim was allowed. With regard to the communication from the Secretary of the Board of Trade, it was shown that the couplings and threads of hydrants are the same as those in use in Innisfail and Lacombe.

Hydrants, the towns most likely to be called on in case of fire here.

Ed. Goodells poll-tax was on motion, not granted.

Ald. Bawtinheimer—H. H. Gaetz, that the Secretary got the price per pound on man hole covers and the material from Edmonton, Strathcona and Calgary.

from W. A. Moore, in respect to extending the water main on Douglas St., eastward to the corner of Douglas and Waskasoo streets a distance of about 90 ft. beyond the point called for on the waterworks plan.

Ald. H. H. Gaetz made a strong appeal to the Council to grant Mr. Moore's request. He felt they had a claim on us owing to our sewerage system emptying into the river above Mr. Moore's property.

He thought that possibly we had not dealt with the matter in the wisest manner. Mr. J. P. Moore could put in a very good claim, that we were polluting the water which we were compelling them to use, by not giving them a chance to use our water system.

He was strongly in favour of being fair and giving people a chance to use our water. We were not prepared to forward any particular plan, but considered if we could sell our water to them by meter and thus derive a revenue therefrom, it might be a good plan.

Ald. Stephenson suggested that H. H. Gaetz bring in a new report with particulars.

Ald. Gaetz said he only wanted the Council to express its willingness to give these people water privileges if we could arrive at a satisfactory arrangement.

Ald. Stephenson said it would be necessary to put in a hydrant, which would cost nearly \$100 giving them fire protection, outside the town limits, which some people inside the town limits are denied.

Ald. T. A. Gaetz could not see his way to give these outside people water privileges, when ratepayers are denied inside. He did not mind putting a club in the hands of our enemies, a club which would be used against us.

If we give them water privileges, they will not come in next spring. If they want to get water privileges, they can come inside the town limits.

refuse us the privilege of running our sewerage into the river because one house on the river lower down kicks up a row.

The Mayor thought that the effect of moderation was best and hoped an amicable arrangement could be arrived at.

All Bawtinheimer opposed extending our water system last meeting, but since then he had changed his mind, owing to ascertaining the fact that there would be no expense. He thought those people would be willing to come into the town next year.

He had talked with J. P. Moore and was sure he would not object to coming within town limits. Ald. T. A. Gaetz said these property owners could not put in pipes this fall, so that next spring would be soon enough to give them these privileges and an opportunity of coming into the Municipality.

On the vote being taken it was lost on the following division: For the motion—H. H. Gaetz, G. H. Bawtinheimer and the Mayor. Against—Stephenson, Pidgeon, T. A. Gaetz and Botterill. The motion was declared lost.

Ald. H. H. Gaetz suggested that as the Council seemed willing to grant these privileges on condition they come within the town limits, a motion to that effect be passed. T. A. Gaetz—Stephenson thought W. A. Moore's letter be replied to informing him that the Council are contemplating extending the present limits of the town with a view to taking in the property east of Waskasoo Creek. In event of which the Council would be in a position to grant the request for a service.—Carried.

After some remarks with regard to establishing a market in Red Deer, the Council adjourned.

Correspondence.

Editor of the News,

Dear Sir—I am not in the habit of lecturing people but there is a habit which is not becoming viz: swearing, or taking God's Name in Vain.

By studying the good old Bible and remembering the words of Holy Father hears all that we say, these two things should help the thoughtless to drop this unseemly habit. Yours Truly,

John McVicar.

Innisfail.

Hon. W. H. Cushing, when here last week spent an hour in the Innisfail Museum and expressed himself as highly pleased with Dr. George's unique collection of birds. The Dr. is hoping that the Alberta Government will sooner or later take over his collection and make it the nucleus of a Provincial museum.

—Province.

S.P. Fream is out for the office of Mayor Hurrell for S.P.

As a result of the creamery operations at the Innisfail Creamery during the past year \$50,000 has gone into the pockets of the farmers.

Nicholas Dreesham has sold his house adjoining Dr. George's property. His brother, Peter, who has taken possession of his new purchase.

Jack Moffat was out deer hunting the other day, and as usual, was quite successful. On Wednesday he brought into town the carcass and head of a splendid buck, which fell to his sure aim. The carcass dressed weighed 175 lbs., and was purchased by W. T. Lundy.

Local and General

Try F. H. Tallman for a Heater.

King Edward's birth-day last Friday. Several flags were flying high. The schools were closed in honor of the occasion.

The Innisfail Province tells us of a big yield of oats down in that country. William Gunston's farm at Kneehill Valley yielded 3300 measured bushels off 33 acres.

For St. The News and Farm and Ranch Review for one year.

An ounce of prevention is worth a pound of cure, if you act NOW and buy a good heating stove from Stephenson & Ilsey—The Hardware men.

A rare treat in music will be furnished by the Palmist Sisters in Red Deer Opera House on Nov. 30th, see posters, wait for it.

Arthur Wilson has been elected secretary-treasurer of Clearview School District owing to the resignation of J. A. Youmans, and W. S. Gable has resigned his position as school trustee owing to his removal to Pine Lake.

Stephenson & Ilsey are showing a fine assortment of skates.

Tallman leads in Ranges.

If you wish a loan on your farm property see The Central Alberta Land Co.

A full line of game traps are being shown by Stephenson & Ilsey

the meeting called to organize a Natural History society in the sample rooms of the Alberta Hotel, on Thursday afternoon, last, was postponed to Tuesday Nov. 20th, at 8 o'clock. This step was necessary owing to the unavoidable absence of Canon Hinchcliffe and a number of others. The work is progressing favourably. The ladies have taken hold energetically and no doubt the society will be a success.

You don't know what good value for the prices asked—you can get in ranges until you see Stephenson & Ilsey.

Alford Ronneberg, of Eagle Hill, was accidentally shot last week, whilst out hunting. He was walking behind a friend who was carrying a rifle, which accidentally went off, the bullet entering his right leg. The unfortunate man was brought to town and the bullet was extracted by Dr. McTavish.—Odds Gazette.

Best Varieties Of Oats For The West.

The results of experiments conducted on the experimental farms at Indian Head and Brandon for 1906, show that black oats are not as productive on the prairie as are the white varieties. At Indian Head, Kendall Black stood seventh. At Brandon, the highest producer among the black varieties was Black Beauty and Olive Black, which stood 28th, and 29th.

Banner oats have upheld their reputation at both places. At Indian Head, that variety was first and at Brandon second. American Beauty, which was first at Brandon, was 28th, at Indian Head. Bavarian Improved Ligowo, and White Giant made creditable showings in both cases.

There is a wide difference between the number of days required to reach maturity at the two farms. At Brandon the time required varied from 90 to 107 days and at Indian Head the range was 101 to 123 days. No attempt is made by Sept. McKay of Indian Head, nor by Sept. Wolveston of Brandon to boom particular varieties. The facts are obtained as accurately as possible and presented for the benefit of the farmers.

Wedding.

A very pretty wedding took place at the home of Mr. and Mrs. Geo. Smith, Willowdale on Thursday, Nov. 1st, when their daughter Agnes was united in marriage to Mr. J. T. Watson of the Red Deer Power House. The ceremony was performed by the Rev. D. D. McLennan. The bride-maid was Miss Alice Smith, sister of the bride, while Mr. E. H. Cooper of Calgary, assisted the groom. About fifty guests were present. The bride received many valuable and useful presents. The young couple will reside in Red Deer.

A very pleasant event took place at the home of Mr. Jas. Mason on Oct. 17th, when their second daughter Annie E. was united in marriage to Mr. Frank Keane of Detroit, Michigan. Rev. Mr. Farrell officiating. The bride was becomingly attired in white satin and carried a bouquet of white chrysanthemums and smilax. Miss Frances E. assisted the bride, while Mr. Fred Mason performed the same duties for the groom. The bride's travelling suit was navy blue box cloth, white silk waist and black picture hat. Mr. and Mrs. Keane left on evening train amid a shower of rice, for their future home Detroit, Michigan.

THE WINDOW CURTAIN.

Originally It Was For Use and Not For Ornament.

The real purpose of the window curtain is to regulate the amount of light admitted to the room and to arrange that it cannot be drawn back and forward at will but is a meaningless accessory. It was not until the beginning of the century that curtains were used without regard to their practical purpose.

The window hangings of the middle ages and of the renaissance simply were straight pieces of cloth or tapestry hung across the window without any attempt at drape or regard to the not as part of the decorating of the room, but as a necessary protection against drafts.

It probably is for this reason that in old prints and pictures representing the rooms of wealthy people curtains are so seldom seen. The better the house the less need there was for curtains. In the engravings of Abraham Bosse, which so faithfully represent the interior decoration of every class of French house during the reign of Louis XIII, it will be noticed that in the richest apartments there are no window curtains.

It is an advanced age, 55 years, a resident of Welland, Ontario, who finds relief in Peruna. He suffered 15 years.

Mr. O. J. O'Connell, Welland, Ont., a resident of 55 years, writes: "For fifteen years prior to 1900 I was a sufferer from hay asthma and chronic diarrhea. I grew weak and emaciated and was tormented with insomnia."

"I was treated by eminent physicians but, if anything, was worse than ever. In fact, I was in a miserable condition as man could be."

"However, I chanced to try Peruna and noticed an improvement. Thus purged, I continued, and after several bottles of your precious Peruna, I was entirely well and a wonder to myself and friends."

"If at an advanced age, 55 years, I have obtained such good results from Peruna, there can be no doubt of its efficacy in the treatment of younger persons."

The Bluebottle Fly. The bluebottle fly is purely a meat fly, subsisting altogether upon meat and often laying its eggs in decomposed animal matter.

Galbraith. Galbraith, an Arabian giant who was brought to Rome by the Emperor Claudius to serve in the imperial bodyguard, was nine feet nine inches high. Pliny says that he was the tallest man ever seen in Rome.

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering and frequently valuable lives. This Cordial has gained for itself a widespread reputation for relieving prompt relief from all summer complaints.

A Capital. Twelve tablespoonfuls of any liquid make what the doctors call a teaspoonful.

Giant Middleton. John Middleton, an English giant, born in 1578, was nine feet three inches in height. His palm was eight and a half inches broad, and from the curve to the end of his middle finger.

There is nothing equal to Mother Graves' Worm Expeller for destroying worms. No article of its kind has given such satisfaction.

Elm Dust. What is called elm dust is really the seeds of the tree, which ripen before the leaves are perfectly formed.

Signals of Danger. Have you lost your appetite? Have you a coated tongue? Have you an unpleasant taste in the mouth? Does your head ache and have you dizziness? If so, your stomach is out of order and you need medicine. But you do not like medicine. He who does not like medicine to medicine must suffer, but under the circumstances a wise man would procure a box of Dr. Williams' Pink Pills and speedily get himself in health, and strive to keep so.

Staphylococcus. Staphylococcus is a disease of the skin which will total over half a million dollars.

The Pendulum. Honors are being stolen from most of the great men of former days. Galilei was said to have discovered the law of isochronism of the pendulum while pursuing his studies at Pisa in 1581. Now we learn that the pendulum was used as a correct measure of time among the Arabs as far back as the year 1000.

The Jar of Coughing

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, jars and tears the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the coughing, and heals the torn membranes.

It is a great relief to the throat and lungs. It is a great relief to the throat and lungs. It is a great relief to the throat and lungs.

Ayer's Cherry Pectoral. It is a great relief to the throat and lungs. It is a great relief to the throat and lungs. It is a great relief to the throat and lungs.

The old Roman characters, and heroes wounded by wild beasts in the now ruined Colosseum at Rome, admitted their wounds with acrid balms, made from herbs and plants. In fact, it tells us to rub a place that hurts and in Zam-Buk the great herb, found in the ideal substance to rub with. Zam-Buk differs from ordinary salves, ointment, etc., in the important fact that it contains no trace of any mineral substance and is also free from any animal oil or fat. It is composed of the finest herbs and essences and so refined that the most delicate skin can absorb it with beneficial effect. It is at one and the same time healing, soothing and antiseptic. It does more, does it better and in less time than any other known balm. Use it for all skin injuries and diseases.

WHAT ZAM-BUK DID FOR A MEDICINE HAT FARMER.
Mr. A. White of the Asinibol Hotel, Medicine Hat, says: "Some time ago I received a severe abrasion on the leg and a fractured shin bone. I did not treat the injury seriously for about two weeks, when it got very bad, and I went into a hospital. An operation was performed, and after two weeks' treatment I came out. At that time the wound was not healed up, so I decided to try Zam-Buk. It was so satisfactory that I continued with its use, and the wound in two weeks healed up. I am now well and happy, and I am sure that Zam-Buk has saved me many dollars and a great deal of pain."

A Certain Cure for eczema, skin diseases and eruptions, ringworms, babies' heat or chafing sores, chapped hands, chilblains, nose pimples, and all skin diseases or eruptions. It is a certain cure for all these troubles. It is sold by the Zam-Buk Co., Toronto, in boxes for \$2.50. Send attached coupon to Zam-Buk Co., and free trial bottle will be mailed you.

ZAM-BUK
THE GREAT SKIN-CURE.

"Girls" quietly called old but eminently astute Aunt Broadhead.

"McMurry" they replied as they stunted obedience to her.

"Always remember, girls, that when a man professes to have a fatherly interest in you, he is only using you. It, that your own father can sufficiently supply you with it and that is the oldest of all stories save one in the world—Fudge."

THE FIRST RADIUM.

Its Production Almost Made Paupers of Curie and Her Wife.

When Professor Curie was run over and killed on a street of Paris not long ago the entire world recognized that it had lost one of its foremost experimenters. Yet it was only six years ago that the wonderful element, radium, which he and his wife discovered, passed almost unnoticed among the exhibits in a Paris exhibition, and a stranger, seeking the physicist, found him only through the lucky help of a street girl.

In the 1900 exhibition in Paris, says London Truth, the compilers of the catalogue and the jurors entirely overlooked the tiny vial containing the speck of radium, which the Curies had sent. An exhibitor of diamonds, annoyed because its presence spoiled the color of his jewels, had put it out of sight. An English visitor, however, who had read a reference to the discovery in an obscure journal, hunted it up and later set out to find the discoverers.

He went to many places, the Mines School, the Sorbonne and elsewhere, but he was in vain. He could tell him anything of the Curies. At last, by a strange chance, he ran across a gamine who had heard of radium from a Parisian friend, and he followed her to the City of Paris industrial laboratory, where Curie then worked.

This roundabout information the Englishman was brought to Professor Curie, who was a little amazed, but pleasantly so, to find that some one was so interested in what they were doing.

Mme. Curie, he said, had herself pounded in a mortar with her own hands all the pitchblende from which the speck of radium had been obtained. Pitchblende was costly, and she had not wanted a gram. She had ruined her hands in the work.

They were then spending every penny for pitchblende. Mme. Curie had given up gloves entirely and was wearing very old and badly patched cheap shoes and old-fashioned clothes. The professor had on old shoes and a threadbare coat—his only coat. Their little girl was dressed as cheaply. But they were not content with that. They had carried humanity incalculably by their discoveries in radio activity and their isolation of radium itself.

IN PORTO RICO.

Porto Rico has its problems, social, political and economic, but none of them will prove more difficult of solution than that of labor. What needs to be done is to make labor honorable and to make it a part of the life of the people. This is to overcome ingrained prejudices, a task for a Hercules. Mr. Fowles' recent book, "Down in Porto Rico," pictures the condition of labor as it is in the island today.

To carry a package on the street is indicative either of poverty or lack of breeding.

A family must be very poor if they cannot afford servants. To do any kind of household work cannot be considered by the lady of the house. She sits in the parlor dressed in loose garments and spends much of the day in idly looking to and fro in a rocking chair. When she goes out shopping, either she is accompanied by a servant who carries her small purchases or she goes alone, but she is not to be seen in the street. She is so poor that she must do some kind of work, the fact must be carefully concealed from her neighbors.

Among the men there is the same contempt for manual labor. The merchants must of necessity be busy men. They are very careful not to degrade themselves by doing any kind of common labor. They object to performing work that can be done by any other person. Business men do not carry bundles home at night. They seldom lend a hand when some little mishap occurs or when repairs are needed. They are gentlemen and menial tasks are for common workmen.

The same spirit is shown among the mechanics. When a plumber is sent for by the city engineer, he is not to be seen in the street. He is so poor that he must do some kind of work, the fact must be carefully concealed from his neighbors.

MANAGER RED DEER YARD

Local and General

The Palmist Sisters are musicians of rare ability. Hear them on Nov. 30th in Opera House.

Assistant Chief Engineer Schwartz of the C.P.R. in Lethbridge last week stated that the contract for the big bridge had been let. This bridge will be 300 feet high with approaches; it will be a mile long and will cost \$1,000,000.

If you haven't traded with the Hardware men, try it. They have pleased thousands of customers—and can do the same for you. With your permission.—Stephenson & Illsey.

J. Carlyle Moore, youngest son of J. P. Moore, is opening up a law office in room 27, of the Smith & Gaetz block.

Owing to the success which Fairview has met with the proprietors have decided to put another subdivision on the market in the near future, which will appear under the name of Woodlands.

Four cars in the centre of a freight train for some unaccountable reason jumped the track one and a quarter miles south of Innisfail and piled there Monday evening last week. The accident happened at 15.40, just in time to stop the north bound train and the south bound. Both trains were about six hours late. The south bound was held at Red Deer, and the north bound waited just south of the wreck. Fortunately none of the crew of the wrecked train were hurt in any way.

The Presbyterian Choir is to be congratulated upon securing for the evening of Nov. 30th the Palmist Sisters Concert Co. These artists are well known in Red Deer, and should be well patronized.

6,000 head of cattle and 800 hogs were brought into Regina from outside points this summer and slaughtered there. The beef and pork being wholesaled to towns and cities and villages throughout the province. These figures do not include the large amount of home grown pork that has been slaughtered and added this in it will be seen that abattoir men have distributed a pile of money throughout that country this season.

A number of business men of Calgary are making an effort to have C.W. Rowley enter the field for Mayor. He is now president of the Calgary board of trade, and has made a very vigorous president. He has been very prominent in every effort to push Calgary ahead. Mr. Rowley is manager of the Canadian Bank of Commerce.

The wheat blockade at Rosthern Sask., is a most serious one. For days farmers and several elevators have been awaiting cars. Yesterday the Farmers' Supply company, J.P. Eriksen, of Lake of the Woods and S.S. Turner, elevators were filled to the roof. The Canadian elevator is almost full. There are remaining the two, Union Supply company and British American elevators, where there is room for 30,000 bushels.

Go to Tallman for your hardware.

Hot Lunch, awaits those going by train.—English Cafe.

The "Out in Idaho" company left on Saturday for Lacombe, before going south to Okotoks and then to the East.

The re-opening services of St. Luke's Church take place a week from next Sunday the 25th of November. The Lord Bishop of the diocese will preach at both services.

Mr. F. H. Tallman, the popular Hardware man, has, after repeated solicitations from his numerous friends, consented to stand as a candidate for aldermanic honors. Mr. Tallman is an old resident, has many strong supporters, and should make a good councillor.

A letter was received from E. Martin on Monday last dated Nov. 5th, by one of his friends in town, stating that two of his children had been laid up with diphtheria, but that they were better. They expect to be back in Red Deer as soon as the Dr. will allow them to travel, which will be a week or two yet.

Mrs. St. Clair wishes to announce her departure to London, England in a few weeks on a visit to her parents, and will return early in the spring with luggage full of millinery for the opening as usual. She leaves competent assistants in charge and careful attention will be given to all orders.

Mrs. St. Clair's millinery sale of ladies' and children's dress, ready to wear and untrimmed hats, also lawn, lustre and silk blouses and lace collars, scarfs, and chemises will be sold at 25 percent below cost. This is a good opportunity for ladies, who have not already their winter hats, the above stock is this falls goods and free from damage.

Mr. M. Murdock of Boston Canadian Agent for "QUEEN QUALITY" and "DOOROTHY DODD" shoes, was in town on Wednesday. Mr. Murdock is a keen observer, and when asked his impression of Red Deer, he expressed himself as being delighted with its location and natural advantages. As Mr. Murdock is the General Representative of these popular shoes for women, he calls at only the principal cities. While here he succeeded in placing a very complete range of "QUEEN QUALITY" with "LORD'S" who will control the sale in Red Deer of all goods made by his Company. Mr. Lord is to be congratulated in having secured the best line of ladies shoes offered for sale in Canada.

Post office Inspector Cairns of Calgary and Inspector-in-Chief Ross of Toronto, were in Edmonton last week looking into the conditions under which the city post office has been and is being carried on. They visited the office of the secretary of the board of trade and assured Mr. Fisher that the postal service in the city would be placed at once upon an eminently satisfactory basis, and that there would be little cause for complaints in future. Edmontonians will look upon this statement with interest and will hope that the future will bear out the favorable predictions of the post office officials.

The Amoson Co. left on Wednesday for Strathcona.

S. Elwell fell into one of the open drains, the wheels of his locating his shoulder, splintering one of the bones. He is progressing as well as can be expected.

WANTED—Waitress, English Cafe.

A nasty accident happened last Sunday evening as a couple of ladies were driving along Nanton Ave., near the school. Owing to the elect light dazzling their eyes they failed to see the open sewer and their team fell into it. Fortunately the buggy did not tumble in. It was with the greatest difficulty that the horses were extricated as one had fallen on top of the other. The animals escaped with a few nasty cuts and bruises. John Le Pudevin in, assisting to get out the horses, fell himself into the next excavation and was badly bruised, but fortunately escaped without breaking any bones.

The death of John Shoeshack took place at the Hospital on Sunday morning last between 3 and 4 o'clock. Death is supposed to have resulted from complications after typhoid. Deceased was from Ontario and only a short time ago got in a full trapping outfit and intended spending the winter in the mountains trapping with Frank Broderick. The body was removed to Mr. Stone's undertaking establishment for further instructions.

A fierce squall struck town Monday evening about six o'clock. The large sign in front of the Imperial Bank was blown down plunging through the front window and threatening to smash up things generally. The lumber in Bawtinsheimer's yard was hurled through the air, a two-by-four scantling striking Mr. Stone's back window, and on, smashing the window and supporters into kindling wood. The fire alarm added to the excitement. A chimney near the pink blaking up caused the bridge to turn out.

The Annual meeting of the Red Deer branch of the British and Foreign Bible Society was held on Monday evening last in the Methodist Church. The Rev. Mr. Farrell occupied the chair. After devotionary exercises by the Rev. F. W. Goodwin, M.A., rector of St. James Church Neepawa, Man., delivered a very earnest and instructive address. At the close the following officers were elected for the ensuing year: President, Rev. Canon Hinchcliffe, Vice Presidents, the ministers of the town; Sec'y, S. S. McKee; Treas. G. W. Smith; Depository, John McVicar.

Penhold.

Mr. Boyce Inspector of Schools paid the schools in the district a visit last week.

The Penhold Rifle Association trophy has arrived, and is on view in Wilson Bros. store.

Messrs. Cartmell, Hives and Reeves took a trip out west last week. They report a splendid country, settling up fast.

Hay is still being shipped from this point, and still we see a large number of stacks around.

Robt. Fleming, who added to the size of his blacksmith shop, which he is leasing to the Massey Harris Co. for an implement depot. He intends building another blacksmith shop.

A large number gathered at the Presbyterian Church Penhold last Wednesday evening to hear the Rev. R. Simpson deliver his very interesting lecture on the Peace River Country, which was very instructive and enjoyed by all. Mr. Geo. Harcourt, Deputy Minister of Agriculture occupied the Chair in his very able manner.

Evarts.

The English Church is commencing active operations in the Medicine River district and is organizing services in various parts of the same. The first having taken place on Sunday, Nov. 6th, in the Evarts school house, where it is intended to hold service every first and third Sunday morning in the month at eleven o'clock. Arrangements are also being made for regular services at Poplar Ridge, Shady Fork, Kamana, Elbow, Bell, Eekville and other places.

Lost.

A gold bracelet on the street Saturday night. The finder will be rewarded by leaving at the News Office, or at Bowley & Springbett's blacksmith shop.

Tenders Wanted.

Tenders will be received by the undersigned until twelve o'clock noon, November 14th, for the job of completing the attic of the Hospital. Tenders to cover supply of all material and labor. Plans and specifications may be seen at my office.

S. N. CARSCALLEN,

W. P. HELLIWELL, MANAGER.

Correspondence.

To the Editor of the News.

Dear Sir:—I wish to state that the Band, which played at the dance in the Opera House on the evening of Oct. 31st, was not Mr. McQueen's Band. In fact Mr. McQueen has no band, and was not even in town or aware that a dance was to be held. Mr. W. Morris used Mr. McQueen's name without any warrant or permission.

Yours truly
W. B. MCQUEEN

Notice.

Mr. McQueen has taken up his residence in Town and is desirous of forming an Orchestra. Any one interested or wishing to join, kindly send in their names before the 21st, inst. The above will be called Red Deer Orchestral Society. Apply to W. B. M. Box 222, Red Deer.

Lost.

31-42

For Sale.

Team of Geldings, about 2800, lbs. and harness. Apply to A. W. G. Allen, Red Deer. 42-31

Died.

Henry Evans, an old and respected resident of Penhold school district seven miles south west of town, died on Friday last 9th inst., from heart failure. Deceased had been poorly for some time, and owing to his advanced age, 76 years, he was unable to withstand the fell destroyer. The funeral took place from his late residence in Red Deer Cemetery, the Rev. Canon Hinchcliffe conducting the service. Deceased leaves a wife and family to mourn his death.

Calves Lost.

Strayed from my premises, east of Penhold, 3 calves, red and white, supposed to be in the district east of Red Deer. A reward will be given for information leading to their recovery, to the News Office on.

ROBERT DIXON,

Neat, Up-to-date
JOB WORK

Long Distance Runners

Long distance runners are always good athletes. They require much special training, must be as hard as steel and run with unerring precision.

REGINA WATCHES

Are long distance runners. They are in perfect training, are of hardened steel and run with greatest precision. Some watches may be able to run faster on a sprint, but for steady, reliable, year round performances, the Regina Watches lead the leaders.

We are always pleased to show these watches to prospective buyers and others and explain their good points.

R. A. COBSON, Red Deer.

Winter here once more!

BUT

There is one consolation, and that is you know you can secure the best line of Cutters and Sleighs to be obtained right here in your own town. There is no danger of breaking down with a broken bunk or runner, for our goods are fully guaranteed. We have three makes of sleighs to choose from, besides 12 different sizes. We have light sleighs, heavy sleighs, logging sleighs, sleighs with cast shoe, either round edge or square, just as you wish, there never was before such a large range of Farmers' Sleighs to choose from. Just think, your choice from 134 set, seeing is believing.

CUTTERS.

For those who are looking for something comfortable warm, easy to ride in, and durable, you cannot afford to buy without seeing our line, we have one car of 23 cutters expected in any day, and there is no two alike, and the price is within reach of all.

Satisfaction guaranteed.
